## Full-Stack Roblox Game Developer

**Discord** abdu1zz9
**Email** abdu1zzoffical@gmail.com
**Portfolio** abdu1zzportfolio.online

## PROFILE

Full-stack Roblox game developer who builds complete games on my own, from the first idea to a finished, playable place file. I handle the map, 3D models, Luau code, gameplay systems, UI and animations, so every part shares one consistent style.

I work fast: a full game in a few days, a complete, detailed map in a few hours, and UI and systems with a quick turnaround. My specialty is the modern stud-style look used by today's top simulator and tycoon games.

## SKILLS

| | |
|---|---|
| **Maps** | Full stud-style maps: tycoon plots, base islands, simulator hubs, lobbies, obbies and cities, with terrain heights, custom water and dense detail |
| **3D models** | Props, buildings, vehicles, weapons, tools and creatures, built in Roblox Studio and Blender |
| **Scripting** | Clean, organised Luau: tools, combat, movement, physics, pets, data saving and server-side checks |
| **Systems** | Plots, inventories, hotbars, shops, crafting, quests, leaderboards and admin panels, wired end to end |
| **UI** | Menus, HUDs, shops and popups that scale across phone, PC and console |
| **Animation** | Character and tool animations: swings, throws, runs, emotes and idle loops |
| **Tools** | Roblox Studio, Luau, Blender |

## SERVICES

| | |
|---|---|
| Full game (map, models, scripts, systems, UI, animation) | **A few days** |
| Complete, detailed map | **A few hours** |
| UI and gameplay systems | **Fast** |
| 3D models and animations | **Fast** |

> **Not included:** monetization, progression and economy systems (game passes, developer products, currencies, rebirths and balancing).

## HOW I WORK

### 1. Brief

You send your idea and references.

### 2. Plan and quote

Clear scope, delivery date and price before work begins.

### 3. Build and deliver

Progress screenshots and videos, then the finished, tested place file.
